

BIANCO 1cm

Technical drawing of a wooden structure, likely a staircase or a small building, showing dimensions and angles. The structure is composed of several parts, including a main body and a side section.

Dimensions:

- Overall width: 1990
- Overall height: 2220
- Height of the main body: 1725
- Height of the side section: 1055
- Width of the main body: 1900
- Width of the side section: 500
- Height of the main body's base: 940
- Height of the side section's base: 990
- Height of the main body's top: 697
- Height of the side section's top: 295
- Height of the main body's base: 90
- Height of the side section's base: 195
- Width of the main body's base: 630
- Width of the side section's base: 500

Angles:

- Angle of the main body's top: 135°
- Angle of the side section's top: 45°

The drawing includes a detailed view of the side section, showing a staircase with 10 steps and a railing. The railing is made of vertical balusters and a horizontal handrail. The side section is attached to the main body via a hinge or a similar mechanism.
